

Instructions

Allow python to login to your G-mail

1. Go to this website: <https://support.google.com/accounts/answer/6010255?hl=en>
2. Click on If "Less secure app access" is off for your account
3. Click on turn it back on

← Less secure app access

4. Some apps and devices use less secure sign-in technology, which makes your account vulnerable. You can turn off access for these apps, which we recommend, or turn it on if you want to use them despite the risks. Google will automatically turn this setting OFF if it's not being used. [Learn more](#)

Allow less secure apps: ON

Now make sure you have all dependencies

```
sudo pip3 install RPi.GPIO
sudo pip3 install smtplib
sudo pip3 install ssl
```
